

ACTION FOR TOWN OF ULSTER RESIDENTS

Urge your municipality to place a moratorium on fossil-fuel burning power plants while they consider zoning that specifically addresses power plants.

The next Town of Ulster Town Board Meeting will occur on Thursday, August 16th at 7:00pm at the Town of Ulster Town Hall, 1 Town Hall Drive, Lake Katrine, NY.

1. First, in towns, zoning Must Be Consistent with Comprehensive Plans (NYS Town Law § 263)
2. Please request that the Town of Ulster Supervisor and Town Board **adopt a temporary moratorium on construction of power plants while it considers zoning that specifically regulates power plants.**
3. Demand that the town Supervisor and Town Board **publicly state whether they consider the GlidePath project a “utility company structure” permitted as-of-right in the OM zone as Glidepath has been claiming.**

This resident action was made possible by the generous support of Scenic Hudson, Citizens for Local Power and KingstonCitizens.org.
